

Forskrivningsmodulen (e-resept)

3.4.4 (#10117)

Release Notes

27.6.2014

No component defined

Fix cancelling out of samstemming when there are prescriptions with slv status.

[RENO-8376]

Fixed an error when using prescriptions screen.

In the case where the selected "kortdose" is empty, and therefore impossible to depend on for calculations, the collection of "kortdoses" not accessed using an empty key anymore.

[RENO-8382]
