Forskrivningsmodulen (e-resept) 3.11.0 RC3 (#15228)

Release Notes

12.9.2017

Customer Defect

Defect fixed which could cause update function to be unavailable in samstemming for renewed and changed prescriptions.

[RENO-13402 (Bug 140354), Resolved, Bug 140354: The update-button is often not shown in samstemming]

Bugfix:
Doctors can accept / reject and undo stop proposals even though a slv rejection has been received for item. The same goes for the user proposing the stop, he / she can undo the proposal now.

[RENO-13380 (Bug 139820), Resolved, Bug 139820: Doctor cannot approve/reject draft seponering on a resept that has been rejected by SLV]

Defect

Fixed schema version update no. 1821. This was failing for installations with many registered users

[RENO-13392, Resolved, Schema update fails on version #1821 for installations with more than 50 users]
