

Forskrivningsmodulen (e-resept) 3.6.3 (#12875)

Release Notes

12.2.2016

Copyright © 2016 Thula. All rights reserved.

No component defined

Fixed "Ordinert av" in printouts to show owner/signer if available.

[RENO-10976]

Prescribers other than doctors (i.e. dentists, jordmødre and helsesøstre) are no longer allowed to send or print M25.1/M1/M5 messages for patients with a registered LIB-ansvarlig in the current installation.

[RENO-11002]

DN value for HPR in kodeverk 8116 updated from "HPR-id" to "HPR-nummer".

Note that this will not affect data already stored in the FM database, nor will this impact CV's received from other systems.

[RENO-11012]

LesVarerIBruk EPJ API method updated to include Forskriver in more cases than previously.

[RENO-11017]

LesVarerIBruk EPJ API method updated to include imported prescriptions which got discontinued on the same day after import into the FM.

[RENO-11018]

Fixed Signer/send button activation after answering questions from the pharmacy.

[RENO-11022]
