

Forskrivningsmodulen (e-resept) 3.7.0 RC5 (#13713)

Release Notes

20.9.2016

No component defined

Error fixed which caused an error when opening patients with old papirresepter created from utleveringsmelding (resept from papir-M8).

[RENO-11853]

Fixed an error that could come up when a NIB/FIB resept was received in M9.6, and the prescription had already been stopped locally.
