

Forskrivningsmodulen (e-resept) 4.0.0 RC6 (#15685)

Release Notes

22.11.2017

Customer Defect

FM ignores "Brystprotese" items, as it has in previous versions, should they have been processed in an M8.
[RENO-13804 (erSak:13713), Resolved, CLONE (4.0) - (erSak:13713) Error when opening a patient in FM 3.11.0]

Defect

Now exclamation mark shows correctly and multi dose drop down changes
[RENO-13803, Resolved, CLONE (4.0) - Problems arise when delivery information is being updated in M25.3 to multidose from dosett]
