

# Forskrivningsmodulen (e-resept) 4.0.1 RC1 (#15880)

Release Notes

3.1.2018

## Customer Defect

---

M8 in AF no longer prevents sending a new M25.1 message

[ RENO-13948 (erSak:14244), Resolved, (erSak:14244) M25.1 cannot be sent even though AF is empty ]

## Defect

---

Items from Andre Forskrivninger (AF) are no longer included in the dosett printouts. It is no longer possible to printout dosett sheets while there are unhandled items in AF.

[ RENO-13741, Resolved, External items are included in dosett labels ]
