

Forskrivningsmodulen (e-resept) 4.0.2 RC1 (#16030)

Release Notes

30.1.2018

Defect

Fixed a problem where the FEST update would fail when adding a new package and a local kortdose was registered for the associated LegemiddelMerkevare

[RENO-14092, Resolved, CLONE (4.1) - FEST update failure caused by locally registered kortdose]
