

Forskrivningsmodulen (e-resept) 4.11.1 RC2 (#19594),

Release Notes

15.11.2022

Customer Defect

Requiring "Forskriver" in the prescription view should now be according to specifications.
[RENO-17532, Resolved, Not required to add forskriver as a nurse in PLO when creating Reg]

Defect

When a recall draft is created and the FM is configured to not require drafts approvals an M5 is set as pending on signing queue.
[RENO-17503, Resolved, M5s do not show on queue when creating draft recalls in installation that does not require drafts to be accepted]
