# Forskrivningsmodulen (e-resept) 4.6.0 RC4 (#17580)

## Release Notes

27.8.2019

## Feature

The help file has been updated for the FM client.

[ RENO-15511, Resolved, As a user I want to see an updated version of the FM 4.6 help ]

## Customer Defect

Fixed a problem where the FNR of a newly created patient would be marked as inactive, and therefore not shown in FM UI or sent to the RF.

[ RENO-15510 (207264), Resolved, VS: 207264 - FM does not show PID when we create new patients ]
