

# Forskrivningsmodulen (e-resept) 4.8.2 (#18435)

## Release Notes

11.9.2020

## Customer Defect

---

Fixed log file time strings to use 24 hour clock instead of 12.

[ RENO-16131, Resolved, Query timeout when running the export ]

## Defect

---

Fixed a problem in the LesVarerIBruk EPJ API method when querying VIB for a time period. In some cases, an e-resept that was renewed within the given period would not be included in the results.

[ RENO-16212, Resolved, CLONE (4.9) - Missing prescription from LesVarerIBruk results ]

Database changes to fix performance issues.

[ RENO-16203, Resolved, Add missing index for PatientIdents ]
