Forskrivningsmodulen (e-resept) 4.9.3 RC1 (#18743)

Release Notes

2.2.2021

Customer Feature

The text of the import button in the medication warning dialog has been changed from "Importer resept" to "Importer".

[RENO-16436, Resolved, As a doctor I want a different label for the "Importer resept" button in the warning dialog]

Customer Defect

When creating delivery requests (ekspederingsanmodning), the search for favorite delivery agents is now quicker.

[RENO-16425 (597390), Resolved, Finding favorite delivery agents for a delivery request takes a very long time]

Defect

AK journal view is now shown in the same order as the "mini" view in the prescription view, i.e. by "Opprettet dato" showing the newest rows first.

[RENO-16196, Resolved, AK-journal not ordered as specified]
